PROFESSIONAL SUMMARY

Highly skilled and detail-oriented **Full Stack & Mobile App Developer** and UI/UX Designer with over 1 year of professional experience building modern, high-performance web and mobile applications. Expertise spans across robust cross-platform mobile application development, full-stack web architectures, and crafting intuitive, user-centered digital products. Proficient in managing end-to-end development lifecycles—from responsive wireframing and interactive prototyping in Figma to writing scalable frontend and backend code, optimizing database performance, and integrating secure APIs. Passionate about engineering clean, accessible, and high-impact software solutions.

TECHNICAL SKILLS

Mobile App Development: React Native, Cross-Platform Deployment, Android UI/UX Design, Native Modules

Full Stack & Frontend Development: React.js, JavaScript (ES6+), Node.js, Express.js, Tailwind CSS, HTML5, CSS3, REST APIs

UI/UX Design & Tools: Wireframing, Prototyping, User Research, Design Systems, Figma, Adobe XD, Photoshop, Illustrator

Databases & Backend Services: Firebase Services, MongoDB / SQL Database Management

Developer Tools & Workflow: Git, GitHub, Postman, Agile Methodology, CI/CD Basic Workflows

PROFESSIONAL EXPERIENCE

Mobile App Developer

Mar 2025 – Present

AI Pinnacle, NASTP Rawalpindi

- Engineer responsive cross-platform frontend interfaces using **React Native** and **React.js**, ensuring seamless 60fps performance and interactive capabilities.
- Accelerate mobile app UI performance by building high-quality, reusable native components and layout structures.
- Implement secure data exchanges by seamlessly integrating **REST APIs** and configuring robust **Firebase** authentication and database services.

UI/UX Designer & Full Stack Engineer

Jan 2025 – Present

K-SOFT

- Architect modern, responsive UI screens for enterprise web and mobile applications, creating interactive wireframes and high-fidelity prototypes in Figma.
- Bridge the gap between design and production by translating design systems directly into clean, maintainable, production-ready full-stack layouts.
- Boost user retention and product engagement by optimizing complete layout navigation hierarchies, interactive flows, and strict accessibility standards.

Web & Full Stack Developer

Sep 2023 – Jan 2025

SiberKoza

- Programmed feature-rich, scalable web applications utilizing **HTML5**, **CSS3**, **JavaScript (ES6+)**, and **React.js** ecosystems.
- Designed and optimized frontend UI layers and end-to-end API logic to guarantee robust performance and universal responsiveness across diverse device screen sizes.
- Managed version-controlled code updates and code reviews, enhancing website loading performance and cross-browser visual fidelity.

KEY PROJECTS

SEE & HIRE – Job Portal & Interview Platform

- Designed and developed interactive recruiter/candidate dashboard interfaces, engineered real-time video introduction/interview workflows, and streamlined application processing systems for an optimized full-stack application experience.

NUTRA – Smart Diet & Nutrition App

- Built a comprehensive mobile application UI integrating intelligent tailored diet blueprints and custom automated chatbot flows, driving seamless user navigation patterns.

E-Commerce Dashboard UI & Full Stack Portal

- Created analytics-focused admin dashboard portals supporting seamless dynamic product tracking, automated order status workflows, and interactive metrics reporting panels.

Source Code Summarization using LLaMA

GitHub Repository

- Contributed to optimizing the interactive UI layouts and application-level delivery for a powerful AI Natural Language Processing system that automatically maps raw code to clean documentation.

EDUCATION

BS Computer Science

2020 – 2024

Air University, Islamabad

CERTIFICATIONS & ACTIVITIES

- **Coursera:** UI/UX Design Fundamentals & Speaking English Professionally
- **Hackathon 2025:** Top 22 out of 200 competing national teams
- **Leadership:** TechFest Organizer – Air University
